

Photo Frame Template by Valorie Clifton

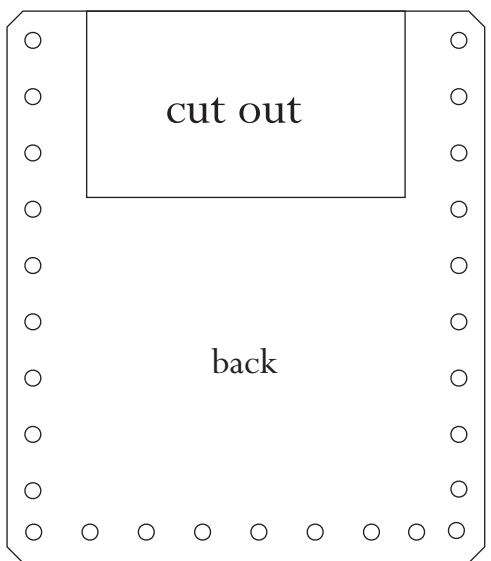

↑ drill holes (*hole size is your choice*) for stitching with 24 or 26 AWG wire (or you could use rivets)

← 18 or 20 gauge copper sheet

→ 22 gauge copper sheet

Glue templates to copper sheet using rubber cement, then saw out the frames.

↑ Fold to the back side **AFTER** carefully matching the holes with the front frame. (there is a "right" side and a "wrong" side).

← 22 gauge copper sheet

→ 18 or 20 gauge copper sheet
